zero preventable deaths by 2020

Patient Safety

M O V E M E N T

zero preventable deaths by 2020

Voice of the Patient

Lenore Alexander

**Objective:
ZERO preventable deaths by 2020
(0X2020)**

Guiding Principles

1. Unify the healthcare ecosystem (hospitals, healthcare technology companies, government, patient advocates, clinicians, engineers, etc.)
2. Identify the challenges that are killing patients to create actionable solutions (Actionable Patient Safety Solution)
3. Ask hospitals to implement Actionable Patient Safety Solutions (APSS)
4. Promote transparency and aligned incentives
5. Ask healthcare technology companies to share the data their devices generate in order to create a Patient Data Super Highway to help identify at-risk patients
6. Promote patient dignity & love
7. Empower providers, patients and families through education of medical terminology and medical errors so they may better advocate for their loved ones

Healthcare Technology Pledges

Actionable Patient Safety Solutions (APSS)

1. Culture of Safety

2. Healthcare-associated Infections (HAIs)

3. Medication Errors

4. Failure to Rescue: Monitoring for Opioid Induced Respiratory Depression

5. Anemia and Transfusions

6. Hand-off Communications

7. Suboptimal Neonatal Oxygen Targeting

8. Failure to Detect Critical Congenital Heart Defects in Newborns

9. Airway Safety

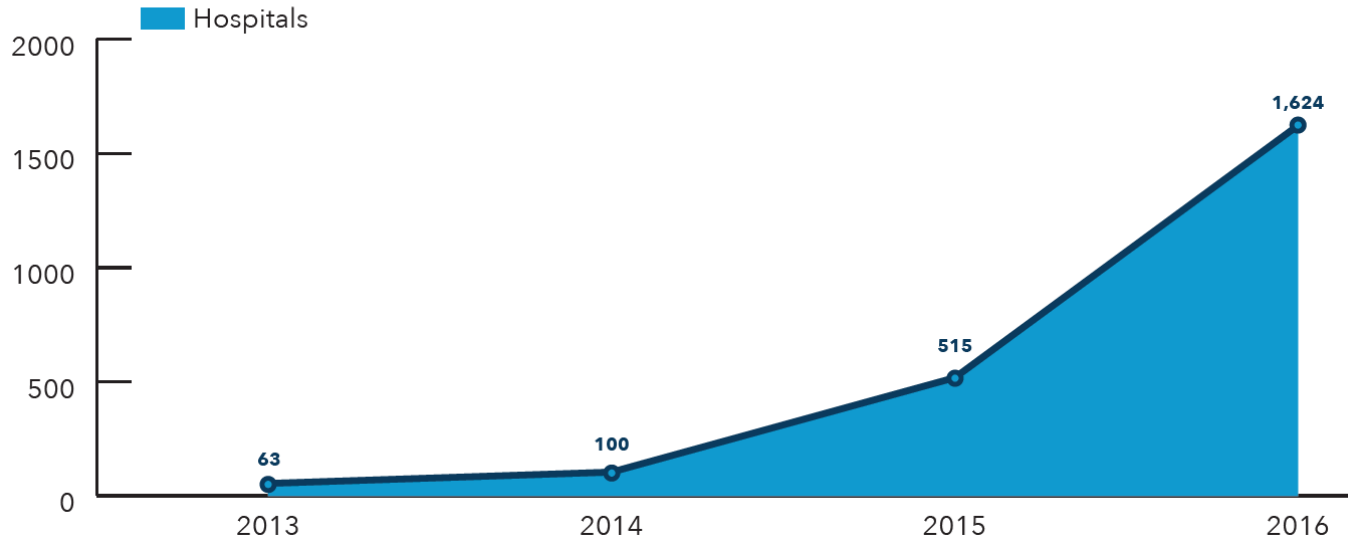

10. Early Detection of Sepsis

11. Optimal Resuscitation

12. Optimizing Obstetric Safety

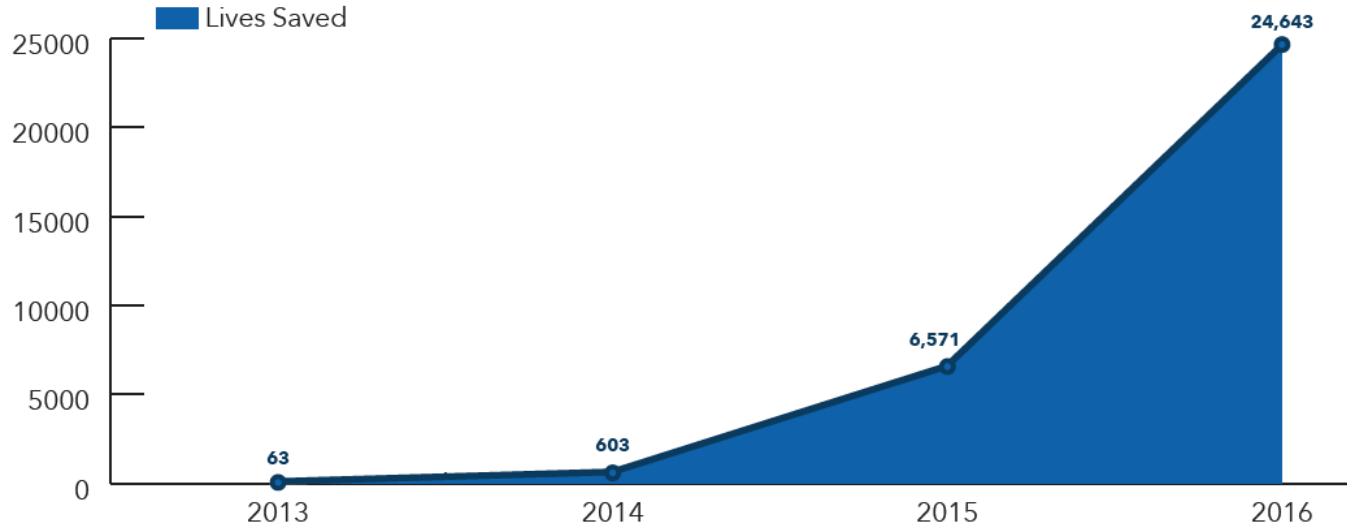

Impact to Date

Hospitals Committed to ZERO

Impact to Date

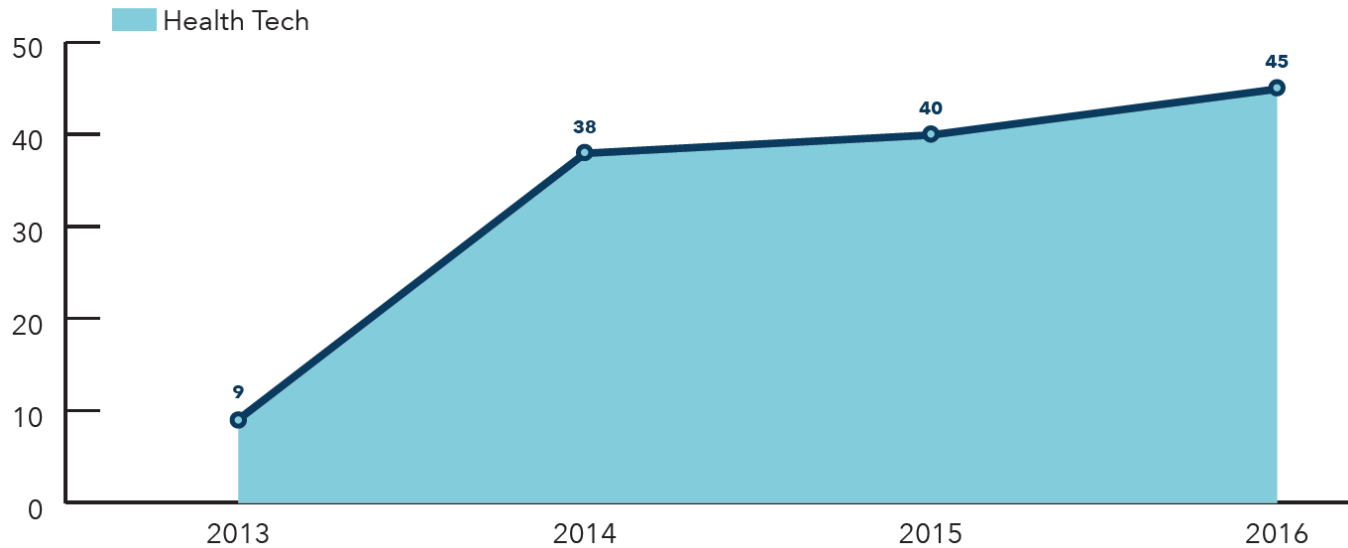

Lives Saved Annually by Committed Hospitals*

*Numbers are based on those provided by committed hospitals

Impact to Date

Healthcare Technology Pledges

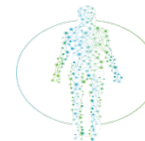

2017 Goals

3,500 Healthcare Organizations

50,000 Lives Saved

100 Healthcare Technology Companies
